

Final Project Ideas:  
Yating Zhan (yz2237)

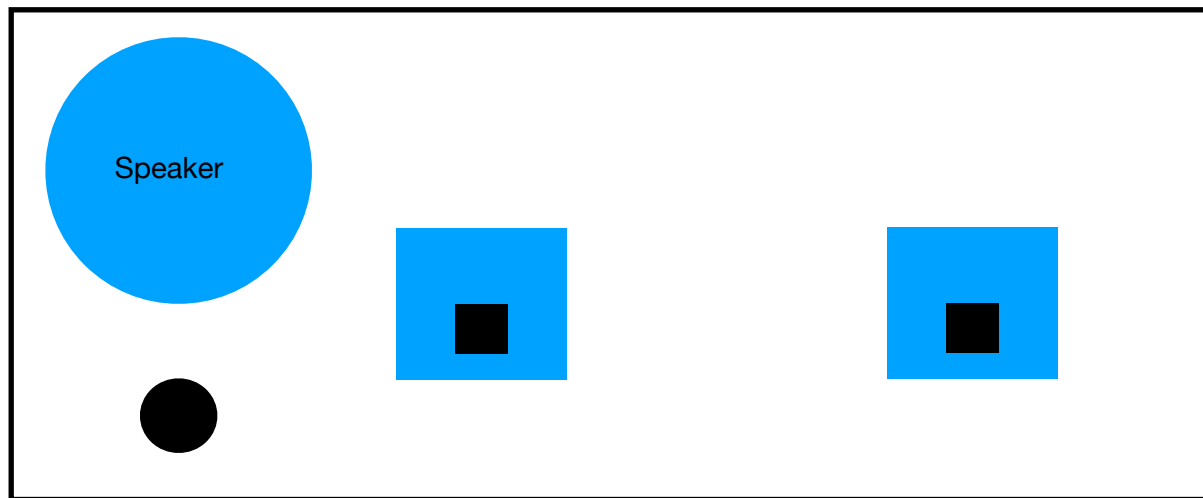

---

### Idea 1:

**Goal:** Simple Theremin

A music instrument that transfer signals from two distance sensor, (maybe a rotary encoder) to into music notes.

**Stretch Goal:** Connect the instrument with a mobile app for storing music and change different settings.

---

### Idea 2:

**Goal:** Pocket Gamer

A pocket gammer for Tic-Tac-Toe with different player mode.

**Stretch Goal:** Add Teris game on the gamer.
